

Violence against animals is a repetitive theme or act purposefully used by perpetrators of ritual abuse-torture to:

1. Silence their victims by threatening to harm or kill their pets if they tell; this terrorizing tactic exerts power and control over the victim by delivering the message, "I can do this to pets so I will do this to you if you tell."
2. Satisfy their sadistic necrophilic pleasures derived by inflicting terror, torture, and horror onto a captive girl or boy child or woman victim during violent organized family/group gatherings, euphemistically termed 'rituals and ceremonies', which have been reported to involve the killing of a bird or cat, for example, to use their blood for smearing or forced ingestion during acts of sexualized torture and horrification.
3. Produce pedophilic/adult pornography involving bestiality.

A PERSONAL TESTIMONIAL

'The Whorehouse', is part of a drawing by Abigail, a survivor of ritual abuse-torture, which expresses the harm she endured when bestiality was forced onto her during the making of pedophilic pornography.

(Donated December 24, 2003)

RITUAL ABUSE-TORTURE [RAT] is an emerging human rights violation and a newly acknowledged form of torture that is inflicted by “non-state actors” onto the captive enslaved child or woman.¹ The violent acts perpetrated within ritual abuse-torture families/groups are:

1. Abuse of all forms
2. Terrorization
3. Torture of all forms
4. Rampageous pedophilia
5. Necrophilism
6. Violent family/group gatherings known as “rituals and ceremonies”
7. Horrification
8. Forcing victims to Self-harming, i.e., Self-cutting or to commit suicide
9. Exploitation of captive enslaved children/women in human trafficking, child/adult pornography, drug dealing, etc.
10. Human-animal violence, i.e. bestiality

What is bestiality? It is the sexualized acts of violation inflicted onto animals and the chosen victims of ritual abuse-torturers.

Bestiality is used in pedophilic or adult pornography.² 90% of child pornography recovered by special Toronto police unit is made in Canada, US, and first-world countries and is inter-familial³ and can be homemade.⁴ Bestiality is reported to be common within ritual abuse-torture families/groups.

Child pornography is defined as any representation, by whatever means, of a child engaged in real or simulated explicit sexual activities or any representation of the sexual parts of a child for primarily sexual purposes.⁵

LINKS BETWEEN HUMAN-ANIMAL VIOLENCE SHOW:

1. Animals commonly harmed are dogs, cats,

horses,⁶ cattle,⁷ rabbits, sheep, or zoo animals.

2. Violent offenders who engage in acts of cruelty towards animals frequently had histories of parental neglect, brutality, rejection, or in some cases had lost their pet through intentional or “accidental” killing often by abusive fathers.⁸

3. Violence is a learned behavior so violence against animals can be an inter-generational pattern of violence.

4. That parents who inflict violence onto animals as a violent form of punishment against children can be an indication of the presence of other forms of family violence.⁹

5. Animal abuse is frequently an indicator of other forms of violence within the family/group including violence against children, partners, and the older adult.¹⁰

These links ought to be considered applicable to ritual abuse-torture families/groups.

WHO COMMITS HUMAN-ANIMAL VIOLENCE WITHIN RAT FAMILIES/GROUPS?

Mothers, fathers, guardians, family members, and other like-minded friends, neighbors, professionals, clergy, or laypersons; men and women from all walks of life, volunteers, or community workers, all who can and do use their parental or positional power as a cover.

WHY DO RITUAL ABUSE-TORTURERS BECOME PORNOGRAPHERS?

- ▶ To satisfy family/group pleasures and demands for trophies of their cruel and inhumane pedophilic and bestiality pleasures;
- ▶ To make “training films” to teach children how to perform sexualized acts and to normalize pedophilic bestiality;

- ▶ To gain “insider” prestige and other benefits, within their specific family/group or within other inter-connected regional, national, or transnational ritual abuse-torture families/groups;

- ▶ For greed, financial profit, or other gains by satisfying the “outsider” demand for pedophilic and adult bestiality pornography.

WHERE ARE THE BESTIALITY AND PORNOGRAPHY PRODUCTION SITES?

Some sites are: In their homes including basements, on farms or zoos, in cottages, private offices, or the out-of-doors, or when transported—by car, truck, bus, plane, or train—to violent group gatherings or to any place safe and suitable to the perpetrators.

PREVALENCE: To date we have received reports from Africa, Australia, Canada, England, Germany, Holland, Israel, New Zealand, Scotland, and the US.

INTERVENTIONS:

1. Children in violent homes or as victims of violence may act out their victimization onto animals or other persons—make this factual link between human and animal violence.
2. Report suspicions of or witnessing of animal cruelty. Some indicators are: animal cringes from their owner, non-accidental injuries, emaciation, burns, beatings, or signs of torture.
3. There can be a high turnover of pets in violent homes.¹¹ When assessing at-risk children ask about family relationships with pets, i.e., “Who looks after the pets? What happens to pets when someone is angry?”
4. Develop laws, if there are none, which protect and mandate reporting animal cruelty or bestiality to animal, as well as, child and family protection services.
5. Integrate the links of human-animal violence into multi-disciplinary educational sessions.
