	Comments :	I was a victim of RAT from the ages of 2 1/2 to 8. I have memories of being drugged, exposed to electrical current, raped beaten and tortured. As I have been pursuing therapy, I have relived events that seem fantastic truly sick. Then on occasion I go to a website and find out that others have experienced the same before I even recognized it as a componet of RAT. I believe that my Father made many efforts to keep the abuse secret from my mother. Events culminated in a murder whereupon my father discontinued, I believe his malicious practices. I spoke with my father about it one day. He mentioned that terrible things had happened to me as a child and that everything was going along smoothly until my mother became aware of the situation.

	Comments :	multigenerational abuse from birth till 20years of age, finally thrown out for non-conforming. fled country been remebering since aged 21. Family found out where I was after taking them thru legal battle, harrassment has stopped now after I won legal battle. SRA took place in Ashburton and Christchurch, cult still active today but Im free but fighting 20 years of intense programming as I hold alot of information about workings of cult and all the related crime groups that went with it.

	Comments :	I was first sexually abused in the Forest surrounding Meyers, a small town just outside of Lake Tahoe California in 1979-1980. I was later sexually abused several times in neighbors homes and eventually filmed with many other children in an apartment. I was abducted from my bedroom and missing for over 16 hours, when the police brought in the bloodhounds i was "miraculously" returned. I have no memory of where I was when i was gone, just before and after the incident. We later moved to Arkansas where the abuse continued by other adults. I believe my mother may have been involved with the cults because everywhere we went i continued to be abused in the same ways, just by different people. I was eventually rescued by my grandparents who took me from my mother and kept me safe.

	Comments :	I believe I was ritually abused by a practicing witch who hypnotized me into sleep walking to her house next door during her rituals. She would return me to my mother's and say I walked in my sleep to her house barefoot and was asking for my mother. My Mom never knew how long I was gone. This happened alot.

	Comments :	My parents were in a cult, but dad sold me out to child pornography studios in LA area. I was forced to bear a child when I was 12 in a cult ritual. They did not get her a birth certificate. I was not able to protect her, she was raised by another cult member in a different town. She died when I was 14, she was murdered in front of me, in a snuff film.

	Comments :	Intergenerational ritual abuse in a Fundamentalist Christian/Satanist cult neighborhood. This group supported its activities through child porn and child prostitution. There were 2 military bases nearby which also borrowed local children, already dissociated from abuse, for use in various illegal projects and research.

	Comments :	I was gangraped by a group of men in a catholic church in Southhampton ,England in 1961. I remembered this spontaneously when my daughter told me we were being abused in 1989. The scene looks like ritual abuse. I was 4. I have the dress I was wearing. I decided to examine it closely for evidence. There are several areas of spots of blood in a triangular pattern along the hem.I remember wearing that dress and pretending I was in a mass of ribbons to survive. I still love fabric when I am stressed.
