| 86. | Comments : | I was found to be a "Marionette" by the local witches/cultists in the Arcata/Willow Creek, California area, and was used and abused by the witches/cultists because they knew of my being hypnotized and unable to stop them or do anything about what ever method they decided to abuse me with. Apparently someone had found out about me being hypnotized as a child, informed the local witches/cultists of my childhood, and I became a pass around marionette for the local cults. My 12 year old daughter was to be the next victim. I moved us away from there. Avoid those geographic areas, the school's teachers, administration and counselors are also cultists. Witchcraft is in the schools, spell casting is an every day occurrence. Students have been told not to spell cast against the teachers or at school during school hours. |

| | Comments : | I was abducted at birth by a transgenerational cult from a maternity ward in South Western Michigan, Holland in December of 1950 . They were going to kill me at 7 years old if I didn't stop running away and telling people I was not their child, so they hypnotized me instead. I was made into a "Marionette". The memory cap was popped on Nov 8, 2003, when I was 52 years old, and I am now in the process of DNA testing myself, trying to find out who I was born to be, and trying to bring these people to justice for their crimes of kidnapping, mind control and the murder of the infant they gave to my parents in the hospital. The death threats continued until I was 22, I decided to move to the far edge of the continent, 2500 miles away. |

| | Comments : | I research child abuse/dissociation. I have seen many survivors through the UK who have/are being ritually abused. An educated guess of estimated incidence is 0.5% of the general population - excluding the babies. DID is 3%. |
