	Comments :	Wichita, KS...There are several (at least) groups of occultists operating in this area. They meet in an underground "temple" west of Wichita. Actually this is like a series of basement rooms under or near a barn on a fake farm. They use Wizard of Oz themes as some of their inspiration. Our family was tortured, mind-

84.	<p>controlled, used, and hypnotized for many years. Horrific things happened to us and it is a miracle that we survived. These groups practiced an abusive form of witchcraft with satanic elements, and were involved heavily in child pornography & prostitution, making and selling films, dealing drugs, selling babies created and taken from captive women, etc. Some of the people involved were from multi-generational families which claimed to be Catholic, and other perpetrators infiltrated our Pentecostal church and pretended to be Christian converts in order to destroy it. My children were the first to talk and remember. I also began to remember several years later. We have moved far away from this area, and have prayed in agreement in Jesus' Name for the evil power of Ted to be broken completely. This means that many victims will now be safe. May all the perpetrators repent in the fear of the real God, as their powers will be speedily stripped away from them. I am also believing for many captives to be set free in Kansas, and for the ties that bind them broken for good. I would love to hear from any survivors from this area.</p> <p>Posted by :  Nitsa Kedem Oz </p>

	<p>Comments : I grew up in Ramat-Hasharon, Israel. My abuse started at a pre-verbal age and lasted ten years. My father introduced me to the satanic cult he belongs to. There was torture, child pornography, child trafficking, mind control and terror.</p> <p>I have been in recovery for over twenty years. It is hard to find good therapists that can help-sometimes I had to interview 20 or 30 on the phone but ended up with a great therapist.</p>

	Comments :	my daughter was the victim of a group of satanists in either the Aurora, CO area or possibly the Woodland Park/Colorado Springs area. She was forced to participate in satanic rituals and now, at age 18, still has post traumatic stress disorder. She was about 6 yrs old when it started in 1995. The abuse ended in late 2002. Her mental health has suffered greatly. She is on anti-psychotics because she was originally diagnosed as having schizophrenia, but recently her psychiatrist told me it isn't schizophrenia, but PTSD. She has terrible flash-backs of the rituals performed and of the things she was forced to do. She talks about babies being sacrificed, drinking blood & urine, etc. Has anyone else been the victim of SRA in Colorado? I would like to hear from you. Peace and quiet minds for all those who suffer... Janie
