	Comments :	I encountered ritual abuse and more, in many different parts of the country over a period of more than 30 years. Reading, Pennsylvania, and especially occurred in Atlanta and north Georgia - particularly in Powder Springs, Cobb County, Georgia (Aryan ritual abuse and pedophile/weapons/drug black-marketing). I also encountered a lot of this kind of criminal activity in Washington, DC, New York City, and Miami and the Florida Keys. I am also a survivor of alleged CIA mind-control and was used to do criminal activities, in controlled alter-states, for quite a few agencies and organizations. I believe the existence of ritual abuse is being covered-up because certain agencies have recruited dissociated RA survivors, like me, to do crimes for them in amnesic alter-states. I call this mentally controlled slavery.

	Comments :	My abuse occurred in Alexandria, VA and the greater Washington, DC area. Everyone I knew in the group adhered to a Luciferian belief system, that going through the steps of discipline would bring greater enlightenment. They believed that there were levels of development and enlightenment with different levels in the spiritual dimensions. They used pain and torture to "help" people reach these levels. While RAT is prevalent in the US it is highly prevalent in Europe. I experienced my worst abuse in Germany, France and the UK.
