	Comments :	Satanically ritually abused outside my family while attending church for many years. Thanks to dissociation, I kept this secret from myself (until recently) and survived. In long-term intense therapy for same and PTSD and depression. Life is hard, but at least we made it out.

	Comments :	Abused by my elder sibling in 1987. My sibling is part of a flourishing NWO group in Marin and Sonoma Counties. Psychological torture, covert hypnosis and mind control is being used. The group, or rather, network wants to usher in the NWO. They want our world to be structured like a feudal system. There are many pilots and attorneys invloved. The network is structured like an MLM that grooms future gurus. Ordinary people are pulled into the network and coached to adopt cult-like techniques. They are gradually coached to abuse others and to put those under them through a conversion process. Most people at the lower levels do not know they are involved in an NWO network. The core people in the network enjoy hurting children and anyone else they perceive to be weak. They mimic the illuminati.
