| 86. | Comments : | I was abused by my father and a masonic group he was a part of. It happened between 1968 and 1974 and stopped because he got put in prison for something unrelated. After that he decided stay out of my life till I was grown. By then he was a pathetic old man. He never had day to day contact with me because of divorce. He died 2 years ago and I am still rejoicing. |

| | Comments : | My 12 year old son, and his older siblings, tells horror stories of the multigenerational and community based abuse he endured by his father, uncle, paternal grandparents and other community members in New Providence, NJ. Other towns included in NJ are Maplewood, Union and Bayonne. Abuse was reported to authorities but nothing was done...in 2002 and again in 2005 because it had been on going. Reports of cutting babies, rabbits, and young man circumscized (real or simulation?) Some children are brought to "group abuse" places by babysitters. Mailmen, Asian restaurant owners, teachers, peditricians, pharmaceutical employees, etc are involved. |
